MASSACHUSETTS AGRICULTURAL PROGRAM BOARD

It is the function of the Board to bring about the highest possible degree of working coordination among the State and Federal public agencies which administer agricultural programs within the State. This is done by Counseling with each other; exchanging information and working together in carrying out common responsibilities if and when they arise. The Board does not develop agricultural policies. This responsibility rests, as always, with farm people, their organizations, and the general public.

AGRICULTURAL STABILIZATION

COUNTY AND STATE COMMITTEES

STATE AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE

The Agricultural Stabilization and Conservation State Committee administers the Agricultural Conservation Program - a program of cost-sharing with farmers for soil and water conservation practices carried out on their farms; the Soil and Cropland Bank Adjustment Programs - programs of relatively long term rental contracts with farmers who agree to retire cropland from production and establish the retired land in a conservation use; the Tobacco Allotment and Marketing Quota, the Feed Grain and Wheat Programs - programs of acreage and production control designed to keep supplies in line with demand; the Wool Program - an incentive payment program to encourage expanded production of wool to more nearly satisfy domestic requirements. The Committee is also designated as the field representative of Commodity Credit Corporation in carrying out farm price support and storage loan activities.

AGRICULTURAL CREDIT

FARMERS HOME ADMINISTRATION

The Farmers Home Administration serves rural residents and eligible farmers with credit and technical help on both farm and money management problems. In addition, the agency administers Title 111 of the Economic Opportunity program which authorizes the making of small loans to low income rural families for the primary purpose of developing income producing enterprises. Association loans are also made to non-profit organizations, municipal and quasi-municipal entities, for the purpose of financing rural water systems, sewer systems, and recreation projects. Also, authorities are available for the construction and development of senior citizens housing to non-profit groups and on individual housing loan authorities; therefore, financing is available to prople sixty-two years of age and older. The Farmers Home Administration communities are designated as those with population of 5500 or less.

FARM CREDIT BANKS OF SPRINGFIELD

Gordon Cameron, President

Comprising the Federal Land Bank, Federal Intermediate Credit Bank and Springfield Bank of Cooperatives.

The Federal Land Bank

The Federal Land Bank of Springfield makes first mortgage billed loans to Massachusetts farmers through local cooperatives - Federal Land Bank Associations. These amortized loans, with interest on new loans now at 5½ %, are based on the normal agricultural value of the farm, and the usual term is from ten to thirty-three years. The objective is to provide farmers with dependable, long-term, low-cost mortgage credit for all agricultural needs, on terms related to the earning capacity of the farm business.

Federal Intermediate Credit Bank

The Federal Intermediate Credit Bank is a bank of discount and frequently is referred to as a wholesaler of short and intermediate agriculture credit. It is designed to provide a constant and dependable source of funds to organizations requiring money to meet their needs in extending credit to farmers in the areas they serve. It is authorized to purchase notes offered to it by production credit associations, farmers' cooperative credit associations, commercial banks, and other qualified organizations. Loans purchased may be for crop production, capital purposes and almost any other purpose pertaining to the farm and the well-being of the farm family. The Bank does not deal directly with farmers.

Springfield Bank for Cooperatives

The Springfield Bank for Cooperatives grants loans to legally eligeble agricultural cooperatives which market produce on the farms of members and other patrons, or purchase supplies to be used on those farms, or provide farm business services. To such cooperatives, secured loans may be made to assist in the financing of land, buildings, and permanent equipment and loans may also be made for working capital purposes with or without security, depending upon the credit standing of the borrower. Considerable flexibility exists with respect to loan maturities. Each cooperative which borrows from the Bank becomes a stockholder of the Bank and shares in its earnings in proportion to its patronage. In addition, the Bank counsels with cooperatives in an attempt to make their operations more effective.
